

Greeting from St. John's!!!

“ Hard times don’t create heroes. It is during the hard times when the ‘hero’ within us is revealed.”

Easier said than done. In the face of adversity, despair and hopelessness, it is only our belief that we are not alone and there are people who truly have our well being at heart, that takes us out of the whirlpool that we find ourselves in. We in India have been through very difficult times and you will find it reassuring that you too will overcome this challenge miraculously. God himself will see you through and you will find an unshakable support system of friends, families, neighbours and even strangers extending their support to give you the strength during these unprecedented times. You will not only come out a winner but will also have a deep sense of the presence of God in every breath you take. Do not let fear the pandemic. This too shall pass and you will bounce back with vigour and good health.

Lord, look upon my brethren with eyes of mercy. May Your healing hand rest upon them, may Your life-giving powers flow into every soul, cleansing, purifying, restoring to wholeness and strength for service in Your Kingdom. I know that with you all things are possible. In Jesus Christ's name, Amen.

Dear all

We as members of the Edmund Rice Family pray for your well being during this tough time of the pandemic. We all need to have strong faith in God as he is the one who will help us sail through this challenging phase of life.

Just stay positive and find some time for having fun and laughter. We are confident that we all shall get through this safely, TOGETHER!!!

Warm regards

---

Dear All

We have learnt that you are facing a difficult time due to the increase in Covid 19 cases in your country. Undoubtedly it is a testing time where one is experiencing anxiety and insecurity as we also have gone through this a few months ago. We pray that the Lord's grace and care will help all of us to heal physically as well as mentally.

---

Dear All

We know it's a very difficult time for all of you due to the second wave of the pandemic - Covid 19. We share your insecurities as a couple of months ago we also went through such a tough time. We pray to the Almighty for the safety and well being of all of you.

Dear Students,

Life during this pandemic is chaotic and difficult but it has taught us a lot about our bonds with our family and loved ones. This is the time when you can equip yourself with self-awareness and critical thinking. Whatever we all are going through right now is unlikely to be forgotten but if viewed positively we can grow and nurture this belief that we can cultivate new skills and qualities through effort and perseverance. It can be a life changing experience.

Though Covid-19 unfortunately has driven online teaching learning far from ideal teaching learning but we all are adapting new ways to make it work, and we all will come back as person to the classes till then keep calm and stay positive

Dear Friends.

Greetings.

I hope this letter of mine finds you and your family in best of your health. We all know that these unprecedented times are very challenging for everyone in the world and especially for students. Shifting to a whole new digital classroom has been challenging yet a new experience for all of us.

Australia is facing a 'second covid' wave but you my dear friends do not lose hope. Stay strong and positive during these testing times. This too shall pass.

Love and Best Wishes.

Dear friend

Greetings

Australia has been hit by 2nd wave of pandemic and I can understand your feelings of anxiety and fear. We as students have already experienced this anxiety and strong emotional trauma.

It can become overwhelming at times but trust the positive attitude and staying calm is the only solution. I look forward to happy times ahead.

Love & Best wishes
